

## Louisiana Consolidated Fugitive Emission Program Stringency Table

**Stringency Table:** This stringency table is to be used in conjunction with the Workpractice Terms and Conditions. Consolidation is done between the groups listed. Of the applicable equipment leak programs being consolidated, the program in the highest group in the table hierarchy is to be considered the overall most stringent program under the Guidelines. Referencing Subparts shall comply with the referenced program in the manner required by the provisions of the referencing Subpart. The Guidelines may be used only in accordance with a Source Notice and Agreement or a Title V permit. Programs must be consolidated on a unit-wide or a facility-wide basis.
